Transfer Pattern Transfer the pattern on to tissue paper with a pencil and then transfer to your bisque with either a watercolor marker or sharpie if working on stoneware.

Background—Mix CC122 Lemon Peel 50/50 with CSP01 Gloss Medium. Thin to a wash and using the medium sumi brush slip/slap it around in the background here and there. Then add some CC160 Key Lime mixed 50/50 with CSP01 Gloss Medium and thinned and add it here and there in the background.

Leaves—Large leaves are done with a “Ripple or “M” Stroke. Fully load #8 or #10 square shader with CC161 Green Leaf, corner load with CC162 Laurel Green.

Small leaves use the same colors to do a “Wedge Stroke” #6 Square Shader.

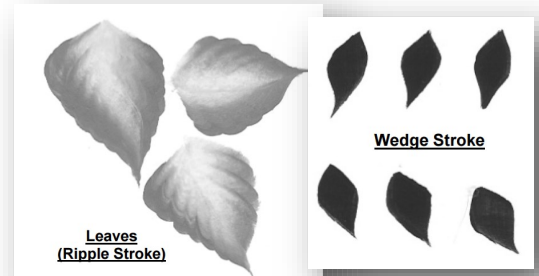

Strawberries—Fully load #10 square shader with CC122 Lemon Peel, corner load with CC112 Candy Apple Red. Seeds are done with 3600 #2 liner and CC101 Cobalt Black.

Flowers—With small Sumi brush, sumi shade CC102 Glacier White on the outside of the petals, then sumi shade CC122 Lemon Peel towards the center. Stipple the centers with the Stubby brush and CC122 Lemon Peel then a little CC186 Burnt Sienna off to one side.

Add tendrils and stems with a mix of the 2 greens and the liner brush. Calyx are done with #3 round and CC161 Green Leaf and CC162 Laurel Green.

Top and Edge—Mix 50/50 LE003 Aqua Splash thin down some of this and apply 1 coat on the jar rings at the top. Then take #10 square shader and shade around the edge with this color. Use 1” Foam brush to apply the same color around the edge.

Glaze—With a fan brush apply 2 coats of CSP01 Gloss Medium (earthenware only). Fire to cone 06.
