

# Color Strokes

(Formerly known as Professional Studio Pigments PSP's)

Although, Color Strokes are considered Underglaze Colors, it is actually a type of glaze. It is Frit based but matt in finish unless glazed over. While there are special techniques, the main purpose is to add color to bisque or greenware by applying a pattern, brushstrokes, or three brushed coats for solid coverage, or flooding color for pattern base coats. Available in 2, 8 and 16 ounce squeeze
