Colors for Earth Products

CC102 Glacier White (Non-enamel)

DZ-202 White De-Zigner (Non-enamel)

SSW102 Silkscreen White

GM300 Glass Medium

Quill Pen Set (Handle, 512 & 99 nibs included)

Color Concentrates (CC's/CC Enhancers) can be capped with a piece of glass or sifted over with clear powdered frit.

- Non-Enamel
- Matte in finish if not capped.
- Needs to be capped to be food-safe.

De-Zigner's have to be capped on the first firing or they will wipe off.

- Non-Enamel
- You can cap with a piece of glass or sift with clear powdered frit.

Silkscreen White is our G302 White enamel with more white pigment added to it to make it stronger.

- Do not cap with a sheet of glass on 1st firing.
- You can sift over it with clear powdered frit on the 1st firing.
- This could have a little bit of a matte finish if not capped eventually.
- Needs to be capped to be food safe.
